### **Part III DETAILED ACTION**

#### ***Notice to Applicant(s)***

1. This action is responsive to the following communications: amendment filed on **5/2/2003**.
2. This application has been reconsidered. Claims 1-3, 6, 7, and 9-11 are pending.

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1, 2, 3, 6, 7, and 11 are rejected under 35 U.S.C. 102(e) as being anticipated by Abe et al (Abe) (U. S. 6,499,822).

Art Unit: 2622

With respect to claims 1 and 7, Abe discloses obtaining a digital image file containing an image for printing by a digital printer (column 14, lines 50-65); printing the image onto a media (column 14, lines 50-65); printing a coordinate system (boundary lines) on the medium over the image that is not visible to the human eye under normal viewing conditions separate from the printing of the image, the coordinate system being capable of locating a specific area of the image on the print (column 16, lines 7-52; column 14, lines 1-8, and column 19, lines 7-24); and printing additional information (1503) on the media that provides information with respect to the content of the image at the specific area (column 15, lines 35-41).

With respect to claim 2, Abe discloses scanning the additional information (column 15, lines 42-47).

With respect to claim 3, Abe discloses the information is printed directly over the image (column 15, lines 35-41).

With regard to claim 6, Abe discloses the additional information is obtained by a single scanning operation (column 15, lines 42-54).

With respect to claim 11, Abe discloses an ink-jet printer (column 15, lines 35-41).

### ***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are

Art Unit: 2622

such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Abe in view of Nelson (U. S. 6,132,024).

With respect to claims 9 and 10, Abe differs from claims 9 and 10 in that he does not clearly disclose that the print is made on paper. Nelson discloses a printing system using paper as the print medium (column 1, lines 40-45). Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to have modified Abe wherein the print is made on paper. It would have been obvious to one of ordinary skill in the art at the time of the invention to have modified Abe by the teaching of Nelson in order to vary the print output mediums.

#### ***Response to Arguments***

7. Applicant's arguments filed 5/22/2003 have been fully considered but they are not persuasive.

Applicant submits that Abe does not disclose that the coordinate system is placed on the media over the image. The Examiner respectfully disagrees. Abe repeatedly discloses that the invisible color data is superimposed on image data (column 21, lines 55-66; column 22, lines 40-44; column 26, lines 18-34; column 28, lines 45-47, and figure 29A). In figure 37A, Abe clearly discloses "using first printing means, print boundary lines on the principal surface of a cloth such that the boundary lines are superimposed on image data".

Art Unit: 2622

Applicant also submits that Abe does not disclose additional information is printed that provides information with respect to the content of the image. Again, the Examiner disagrees.

Abe discloses that information (1602) in the form of barcodes, is recorded on the image data (figure 15 and column 15, lines 42-54). This information (1602) is printing image data (column 16, lines 7-11).

### *Conclusion*

8. All claims are rejected.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
